

Auction of memories

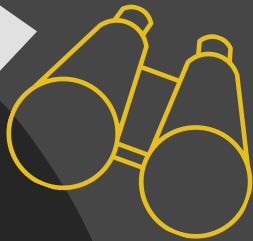

A game to play with friends or family in which everyone auctions off a special item that carries a story or memory.

A different way than usual to have fun, remember special moments and share emotions together.

1.

Identifies the object

Choose an object on which you can tell a story. Anything that might be interesting or amusing to the people you are playing with.

2.

Get comfortable

Try to position everyone so that you can hear and see all the participants well. In a circle is perfect!

3.

Choose the auctioneer

At each round, the auctioneer will decide who is awarded the item.

4.

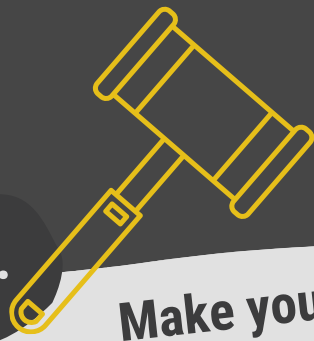

Auction begins

Each participant tells the story behind the object and chooses an auction base.

5.

Make your offer

Participants bid, the auctioneer decides who gets the item and collects the money.

6.

The winner

The winner of the auction is the person who won the most items or the most generous (the one who spent the most).

7.

What about the money?

Share your joy by choosing to donate the proceeds from the auction to a nonprofit organization: have fun while doing good!
